Now it's public. This is bullshit. I offered help, gave options, made him understand, hopefully, that this was not something to be messed with. And in the end, I get that he lied about far along his wife was in her pregnancy, kept messing with the wrong people, and was, of course, spied on the whole time. . . . I will NOT go down with this assault.

The Birth of my Son - My Last Video Speaking about HIV Dissidence

• [John Pavel](#) I can't believe this!! All his talk about how AZT is horrible and now he is ok with his wife and kid being on it?! I would never skip birth control with a woman unless we had a definite diagnosis of infertility. Also I would have hired a home birth delivery by a doolah that I trust.

• [Yvonne Bender](#) He DID NOT say he was ok! He said he will bring his kid home and heal him. He said he didnt want to start a fight he CANNOT win.

• [Yvonne Bender](#) She is VERY premature. 3-4 weeks. Home birth is out and any Doula who takes your money and attempts it under those circumstances is insane.

• [John Pavel](#) Yvonne-but why bring your kid to a hospital after we've all seen dozens of time this same thing happen? Medical records are kept on every one and I'm sure the hospital staff were just waiting to pop the pills in them

Yvonne Bender I think we should see this for what it is. A FREAKING WONDERFUL BLESSING! No reason why this is not the ultimate gift with a woman you love just like it is for neg people. They got pregnant and kept their baby most normal thing in the world. Have you watched his videos? Do you know how many times he says FIANCEE? Its too cute.

Elizabeth Ely Sigh . . . everyone is a victim, aren't they? Nobody could at least STOP posting offensive things to the other side on their Web outlets. It would just be too much, wouldn't it? Too hard. Too much of a "difficult choice."

Yvonne Bender at 4 weeks premature there isnt except maybe a hospital in Mexico but I dont think he had time to drive her out of the crazy USA!

Manny El Dino Elizabeth we are a lion cub fighting in a world of savage beasts! I would hate to be in a situation like his but we don't want another Baby Rico situation here where the law gets involved and still gives the baby that poison under a monitor watch!!! Either way it's a lose/lose situation! You can spill your knowledge and cause to these people but their medical school brains are just going to see you as a nut case. John is a smart man, if his son is in any medical danger he knows how heal the body. The Nigels little girl was given heavy doses of AZT and turned out well once going off of it after a few years. I know John isn't going to sit back and watch his son be poisoned!

Elizabeth Ely And we just got notified by 7 more "likes" that JTD is spying on us right now. . . . Can you guys get a clue as to what you are doing here, and who is looking at it?

Yvonne Bender John is not the most highly independently resourced guy I know. He did the right thing. Baby home soon.

56 mins · [Like](#) · [1](#)

Elizabeth Ely They're taking the kid anyway. I know all the details of the Baby Rico situation. They did exactly the same thing, and it didn't help. They're already preparing the forms to take the child, with blanks to fill in for what they're sure the couple is going to do.

Elizabeth Ely It all rests on one's "state of mind" when it goes to trial -- which, in this case, it probably won't even go that far. They use every single public and Web statement against you.

55 mins · [Like](#) · [1](#)

Elizabeth Ely Yes, they did the right thing in submitting to the medicine. But nobody is fooled. They know the attitude is bad.

Yvonne Bender 'attitude'

54 mins · [Like](#)

Elizabeth Ely They're not going to let this kid go off the medicine in a couple of years. In Minnesota, they admitted it was indefinite, until Steve and Cheryl got a better attitude. And they're not even the parents.

Yvonne Bender We already know one should high-tail it to Mexico. But there just wasn't time with a premature birth.

51 mins · [Edited](#) · [Like](#) · [1](#)

Elizabeth Ely John led me to believe they had just found out Jessica was pregnant. Not almost 7 months' pregnant. That they had "time" to "figure this out." Baloney. Now we all have to jump in and "help," or we're publicly outed as hard-hearted jerks. They had time, months ahead of now, and they didn't even need to go to Mexico.

Yvonne Bender John doesn't have a lot of cash. I think you should not judge. They probably were lining up a doula but premature birth fkd up that idea and then he did his best.

47 mins · [Like](#) · [1](#)

Yvonne Bender Do some work! You can't be complaining coz we had a baby.

47 mins · [Edited](#) · [Like](#) · [1](#)

Elizabeth Ely I'm not judging. I'm saying, Gosh almighty, what the heck are we going to do, when such people don't give us half a chance to help at all? And then they go and consort with our enemies, just to get back at us? Good luck with that!

46 mins · [Like](#)

Yvonne Bender I think John was gonna keep it quiet, not tell an online soul, use a doula and then show him to the world when he is 5! That is what I would do too.

44 mins · [Like](#) · [2](#)

Elizabeth Ely Then all that should have been in place already. I urged, repeatedly, to take no chances. What I got was "we'll see how it goes."

43 mins · [Like](#) · [1](#)

Elizabeth Ely He let Barnett post his video on his Facebook page, as an object lesson in the importance of "common ground." How naive! If we just invite these guys with blogs over for tea and potato chips, we'll call off the hounds! . . . Y'all go join Barnett. I'm done with ya. Seriously: Go count your T-cells to death, and get all cozy with the other side, and make passive-aggressive attacks on the movement. Then complain that we're all too "dogmatic" for your taste. Either way, it doesn't matter. The state will come after your kids.

Yvonne Bender RA board is far from perfect but it should be. As for the people hurt directly by hiv/aids we know full well they can only do their best at any given moment to save themselves. RA board should do the same. Stop complaining coz we had a baby. Its not nice. Help him.

Elizabeth Ely Please. Block me. I want OUT OF HERE -- because if I stay, I have to listen to all this boo-hoing over what people should have done, the poor kid, the poor parents, all that -- when we knew exactly what to do. Just keep a low profile. I urged it for months, and my advice was shunned. What do I need to do to get excommunicated from you assholes?

Yvonne Bender Ms Ely the sooner you understand what a VICTIM actually is the less of your confusion we will have to endure. A victim is a person who is hurt by something. They remain a victim until that hurting stops. A victim is not an attitude problem. Or a plavc you occupy coz you prefer it. People need help to get out of being a victim coz if they are still there its because they cant get themselves out. So... help him already with all you have.
